## Junior Full Stack Developer

A former IT consultant with 2+ years of experience at a global IT consulting company. Finished 12-week Full Stack Web Developer Bootcamp at Craft Academy. Seeking to start a new career as a web developer with excitement.

## WORK EXPERIENCE

### Business Analyst

Accenture, Tokyo, Japan

05/2018 - 07/2020

#### Responsibilities & Achievements

- Assisted IT managers with business requirements analysis and product releases, achieving successful product delivery 10+ times.
- Automated analysis and report of daily work progress by building Tableau dashboards, reducing workload by an estimated 66%.
- Assisted in User Acceptance Testing by writing user manuals, training the users, and providing on-site support.

## EDUCATION

### Full Stack Web Developer Bootcamp

Craft Academy, Sweden

02/2021 - 10/2020

#### Achievements

- Finished 5 group projects building full-stack applications using React, React-Native, and Ruby on Rails.
- Practiced Test-Driven Development, Agile Software Development, and pair-programming consistently throughout the Bootcamp.

### Bachelor of Science in Business and Economics

Kyoto University, Japan

04/2014 - 03/2018

### Exchange student

Nanyang Technological University, Singapore

08/2017 - 12/2017

## SOFTWARE PROJECTS

### TuneShare (01/2021 - 02/2021)

- Developed an iOS application using React Native that allows users to post their favorite music and share their thoughts.
- Developed a RESTful backend server, providing users with music data retrieved from Spotify API.
- Challenges included implementing a preview of song and enhancing User Experience.
- Utilized: React Native, Redux, Cypress, Jest, Ruby on Rails, RSpec, RSpotify, Devise Token Auth, Git, GitHub

### Kitty News (12/2020 - 01/2021)

- Developed web applications that allow admin users to create articles and users to view articles.
- Challenges included user authorization and implementing a file attachments feature.
- Utilized: React, Redux, Cypress, i18next, Ruby on Rails, RSpec, Stripe, Devise Token Auth, AWS, Git, GitHub

### Slowfood (12/2020 - 02/2021)

- Developed a web application for users to order food.
- Developed a RESTful backend server, enabling data of users, products, and orders to be stored in a PostgreSQL database.
- Challenges included payment feature and defining relationships between tables.
- Utilized: React, Redux, Material-UI, Cypress, Ruby on Rails, RSpec, Stripe, Devise Token Auth, Git, GitHub

### Rock Paper Scissors (11/2020 - 12/2020)

- Developed a web application for a rock paper scissors game between 2 local users.
- Challenges included state management and enhancing User Experience.
- Utilized: React, Redux, Cypress, Git, GitHub
